

Join us in observing the *Second Annual*

# Healthcare Sabbath

*When we look for justice in our communities, we have to ask...*

*Why do some people in Illinois have health care while 1 in 3 try to make do without?*

*Why do so many families struggle with medical costs, even when they are insured?*

*Why does it seem like more employers drop more health care benefits each year?*

***What can we, as people of faith, do to impact this issue?***

**SAVE THE DATE: November 2-4th, 2007**
