Group Study Module

Global Climate Change: More Burden on the Poor

JustFaith Ministries announces the availability of an important education and faith formation study. In conjunction with the Catholic Coalition on Climate Change, we are offering this study module for use by faith communities.

The approach of the Catholic Coalition on Climate Change and Catholic Bishops' Environmental Justice Program has been to focus on the themes of prudence, poverty and the common good, as well as Catholic Social Teaching. This module will expand and explore these principles and will have a strong emphasis on how climate change will impact the poor at home and abroad.

The six-eight week program will draw out other arguments for and against action and to demonstrate—in a faithful and scientific way—the hazards of a “do-nothing policy”.

This module will include action items for stopping further global warming (mitigation) and what will be needed to help the poor who are impacted by climate change.

To register for JustMatters Modules, visit our webpage at www.justfaith.org
For more information contact David Horvath david@justfaith.org

Available in October 2007

****JustMatters is a new and expanding series of formation materials that allow participants to spend six to eight weekly or bi-weekly sessions focusing on a particular social justice topic**
